

16 Guage Available

1/2"

Coming Soon 1/8" Aluminum

Blank Filler panels are designed for 19" rack-mount applications. Panels are manufactured with four, eight or twelve mounting holes depending on panel size. 1/2" 90 degree flanges are added to provide additional strength. Heights listed above are the outer dimensional size from top to bottom.

All panels are Primer coated to help resist against rust and prep metal for upper coating. Finish coat is applied as "Satin Black"

Panels currently available in 16 gauge mild steel. Coming soon - 1/8" Aluminum.
